MEETING ACTION

(BUDGET REQUEST FOR AGRA ORGANIZED MEETINGS)

Original Meeting Allocation	☒	**Supplementary Meeting Allocation**	☐	**Meeting Allocation Number**		**Admin/Program Budget to be charged**	Activity Code 116-332

Meeting Date and Title: Annual Agricultural Policy Conference (AAPC) October 2026

Responsible Officer: Donald Mizambwa

Meeting Organizer: Aikade Nkini

Meeting Location: Dodoma Region

Total Amount of Budget Request: **$ 4,483.50**
(Attach completed budget worksheet)

Program/Sub-program: Master Card YEFFA 116-332

Meeting Description:

Background and introduction:

Agriculture and the wider food system are central to Tanzania's transformation, supporting livelihoods, food and nutrition security, jobs, industrialization, exports and rural development. The sector employs over 65 percent of the population, contributes about 28 percent of GDP and accounts for approximately 29 percent of export earnings (NBS, 2025). With real GDP growth estimated at 5.4 percent in 2024 and about 5.8 percent in the first half of 2025 (World Bank, 2025), Tanzania has a strong foundation for building a more productive, resilient and inclusive food system.

Tanzania has strengthened its commitment to agricultural transformation through greater public investment in productivity, commercialization and value addition. The 2025/26 national budget allocated approximately TZS 1.93 trillion to agriculture, a substantial increase from 2021/22 (Ministry of Finance, 2025). Investments in irrigation, research, extension, inputs, markets, rural infrastructure and youth opportunities support a more inclusive food system that can respond to climate, market and food security challenges.

The policy environment is also evolving. Tanzania is transitioning from Development Vision 2025 to Vision 2050, guided by Agenda 10/30, the Agricultural Sector Development Programme, the Agriculture Master Plan 2050 and related crop, livestock, fisheries and food systems initiatives (Planning Commission, 2025). The Kampala CAADP Declaration and Strategy and Action Plan 2026–2035 further prioritize resilient, sustainable agrifood systems. These frameworks call for coordinated action that improves nutrition and access to affordable, healthy diets.

These ambitions face growing global and domestic uncertainty. Tanzania's food systems are exposed to climate variability, extreme weather, geopolitical disruption, volatile energy and fertilizer prices, supply-chain shocks, pests, diseases and pressure on land and water. Erratic rainfall has shown how quickly shocks can affect production, food security, livelihoods and prices (FAO, 2026). Resilience requires systems that anticipate, absorb and recover from shocks while maintaining access to safe, nutritious and affordable food.

Against this background, the 12th Annual Agricultural Policy Conference will be held under the theme "Building Resilient and Inclusive Food Systems in a Changing Global and Local Context.". The conference will examine how Tanzania can strengthen the resilience and inclusiveness of its food systems while advancing agricultural transformation, create opportunities for youth, women, smallholder producers and agri-food entrepreneurs, protect the food system from global and domestic shocks, mobilize long-term finance and investment, harness digital technologies responsibly, and ensure that food systems contribute to improved nutrition, environmental sustainability and inclusive economic growth.

The selected thematic areas reflect interrelated drivers shaping food systems transformation in Tanzania, including demographic change and youth employment, climate and production risks, global market uncertainty, financing constraints, and rapid technological transformation.

OBJECTIVES:

The overall objective of the 12th AAPC is to generate evidence-based policy recommendations that strengthen the resilience and inclusiveness of Tanzania's food systems. Specifically, the conference aims to:

- Assess how global shocks and domestic production constraints affect Tanzania's food systems, and identify policy responses that reduce vulnerability;
- Identify policy, institutional and financing measures that enable young women and men to lead, and benefit from food systems transformation;
- Explore options for mobilizing public, private and blended finance for agriculture amid tighter fiscal space and reduced development assistance;
- Examine the opportunities, risks and enabling policies for digital technologies and artificial intelligence (AI) in agriculture and food systems; and
- Align recommendations with Vision 2050, the Agriculture Master Plan 2050 and the Kampala CAADP Declaration, and agree on follow-up actions with the Agricultural Sector Lead Ministries.

Why not a grant: This is one time event, It does not need a grant

Annual Agriculture Policy Conference (AAPC) 2026

Participant Costs

Item	*# of People*	*Unit Cost/Cost per day*	*Number of days*	*Total Cost*
Transport refund for participants	5	$50.00	1	$250.00
DSA for the participants	5	$68.00	3	$1,020.00
Total:				**$1,270.00**

Meeting Costs

Item	*# of Units*	*Unit Cost*		*Total Cost*
Conference Package	100	$30.00	1	$3,000.00
Total:				**$3,000.00**

Communications Costs

	# of Units	*Unit Cost*		*Total Cost*
				$0.00
				$0.00
Total:				**$0.00**
Subtotal Before Contingency:				**$4,270.00**

Contingency Costs *[Apporox 5% of Budget]*

				Total Cost
				$213.50
GRAND TOTAL:				**$4,483.50**

*** Provide names of consultants and amount for each (if available) under sheet 2 of this worksheet.**

**** If you would like to break down travel costs by originating city, use sheet 3 of this worksheet.**
